

Goal (common agenda)
& Collective Impact

Shared Result

All children, adults, and communities in King County are healthy, have quality/affordable homes, thrive economically, and feel like they are part of a community

Other concurrent initiatives

Testing strategies continually informed by measures of progress in these areas

Health

- Consumption healthy foods
- Active living
- Use of preventive care (physical/mental/dental)

Housing

- Households paying < 50% income on housing
- Housing stability (prevent involuntary displacement)

Economic Opportunity

- Unemployment
- Income above 200% of poverty
- Business stability (prevent involuntary displacement)

Connection to
Community

- Examples:
- Youth who have adult to turn to for help
 - Adults who have emotional support

Strategies (shifting policies/systems/environments to ...)

Increase availability & access to
healthy food and active living

Increase availability & access
to good housing

Increase opportunities to
thrive economically

Increase opportunities for
community connections

Built environments and housing are safe, affordable, and have features that encourage walkability, access to public transport, and amenities to foster community connections and leisure time physical activity

Policies and TA to support new (and sustain
existing) food and other businesses

Health education about ACA and access to
preventive care services and what's covered

Develop emerging certification programs (e.g.
CHW); Local companies and job training

Policies/agreements that support housing
stability and development of mixed-income
housing

Increase demand/knowledge/norms to support healthy eating, active living, good housing, strong economy, and sense of community

* By 2025, people living in COO sites (SeaTac/Tukwila, Rainier Valley, and White Center) will experience a 7% improvement. ** Includes qualitative & quantitative measures. As appropriate, measures will be analyzed by race/place/income to track progress towards equity.
